

DEATH OF BACON SHOCKS SENATE

CONTINUED FROM PAGE ONE.

lawyers, and served with distinction on the Judiciary Committee, and for many years had been the ranking member in the Democratic membership of the Foreign Relations Committee.

Although he was opposed to the plan for the direct election of Senators by the people, he was the first Senator to be chosen by that method. His term in the Senate would not have expired until March 3, 1913.

It was said yesterday by members of the Georgia delegation in Congress that he was the only man elected to the United States Senate from Georgia for the fourth consecutive term. He was first elected in 1884, and re-elected each time. His last two elections followed a nomination at a direct primary.

In Confederate Army.

Senator Bacon was one of the few men in the present Congress who had seen service in the civil war. He entered the Confederate army in 1861, as adjutant for a Georgia regiment, and later served as a captain on staff duty. He participated in the campaigns of Northern Virginia. Following the war he practiced law at Macon, Ga., served as a delegate to State and national conventions, as a Presidential elector, and for fourteen years as a member of the Georgia house of representatives, and for ten years as speaker. He was a candidate for governor of Georgia several times, but was never successful.

Senator Bacon was a Senator of the old school. Prior to the reorganization of the Senate by the Democrats, Senator Bacon held the leadership of his party in that body when it was in the minority. He presided over the party caucus, and was his party's leader on the floor. He was deprived of the leadership of his party when the Senate reorganized and the Democrats took control. Senator Clarke, of Arkansas, was chosen as president pro tempore, a position of leadership that had generally been conceded to Mr. Bacon. The Senator from Georgia was unwilling that any campaign should be made for him for the position.

His last conspicuous public service was in connection with the Mexican crisis. He gave President Wilson most loyal support throughout the affair, up to the very day he was seized by his fatal illness, while presiding over the Committee on Foreign Affairs.

The State of Georgia has provided for the succession in the Senate by appointing the governor to make an appointment until the people shall elect in due course. It is the opinion of Georgia Democrats in Washington that Gov. Clayton will appoint either Clark Howell, of the Atlanta Constitution, or former Gov. Joseph Brown to fill the vacancy until the regular election, which will occur next October.

It is expected here that Gov. Clayton will be a candidate at the direct election, and that whoever is appointed as interim will accept the contest with a personal pledge not to be a candidate against Gov. Clayton.

SENATOR HOKE SMITH PAYS TRIBUTE TO HIS LATE COLLEAGUE

Atlanta, Ga., Feb. 14.—Senator Hoke Smith, when informed of the death of Senator Bacon, of Georgia, this afternoon, said:

"He was a great Senator, an able constitutional lawyer, a splendid business man, a master of parliamentary law. He was equipped as few men are for parliamentary service."

SENATOR HUNTON'S WIDOW DIES

Wife of Former Senator from Virginia Succumbs Here.

Mrs. Rebecca Adams Hunton, of the old Fauquier County (Va.) family, and sister-in-law of the late Gen. Eppa Hunton, for many years Senator from Virginia, died yesterday of heart disease in her apartment at the Hotel, 1125 Thirteenth street northwest.

Mrs. Hunton was a resident of Washington before coming to Washington six years ago. Funeral services will be held at Delaplaine, Va., tomorrow afternoon at 2 o'clock.

TAKES HIS LIFE AS MOTHER IS FORGIVEN

Scion of Noted Russian Family Driven to Suicide by Shame of Parent's Liaison with Official.

FATHER HAD TAKEN WIFE BACK

Special Cable to The Washington Herald.

St. Petersburg, Feb. 14.—An amazing tragedy has followed the exposure of a liaison between C. H. M. Casso, minister of public instruction, and Mme. Denisoff, a well-known figure in St. Petersburg society. As a result of the great influence brought to bear upon him Denisoff recently announced his forgiveness of his erring wife and his intention of taking her back. This so infuriated their son, who felt keenly the dishonor that his mother had brought upon the family name, that today he begged his father not to take her back.

M. Denisoff reproved the young man, who thereupon left the room and shot himself dead. The tragedy has caused a great sensation.

Casso is an arch-enemy of the Jews and was responsible for the recent order expelling thousands of Jewish students from universities all over Russia. In spite of the scandal, he refuses to resign his office, but he is shunned by everyone.

QUAKE SHAKES MONTREAL

Earth Tremor Felt Throughout the Province of Quebec.

Montreal, Feb. 14.—An earthquake of sufficient violence to rattle furniture and awaken hundreds of sleepers shook Montreal and the whole province of Quebec, early today. Reports from Lewis, Bate St. Paul, and L'Islet said that the shock was felt there. Seismographs registered the disturbance. No serious damage was reported.

The shock was felt in this city at 5:45 o'clock.

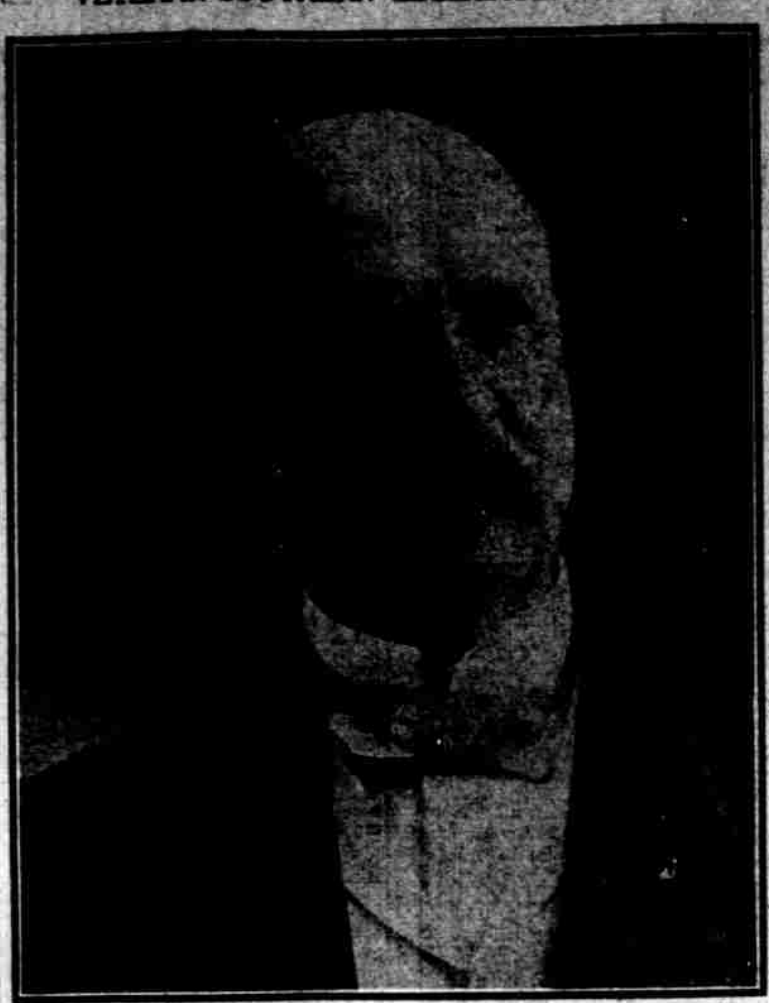

FAIR CONVICTS DO THE TANGO.

Women in Auburn Prison Given a Valentine Party.

Auburn, N. Y., Feb. 14.—Every kind of dance from the Virginia reel to the tango was on the program at the first annual Valentine party for the women convicts of Auburn Prison held here this evening. There were one-step, two-steps and side-steps. The lock-step alone was barred. The recent arrivals were the only ones versed in the new steps, and they taught the older inmates the tango and other modern steps.

Mrs. David M. Osborne, daughter-in-law of Thomas M. Osborne, was a patroness of the dance. Men were barred from the entertainment.

NEW RECORD FOR BALLOONS.

Berlin, Feb. 14.—A new long distance record for balloon flights has been established by Dr. Korn and two companions who traveled 1,770 miles.

Setting out from Bitterfeld, the aeronaut and two companions landed near Perm, Russia. The old record was 1,260 miles, made last year by E. Rumpelmayr.

BIBLE NOT A BOOK, BUT A WHOLE LIBRARY

Dr. Morgan Says It Took 1,500 Years to Write Old and New Testament.

CAN BE READ IN SIXTY HOURS

The midwinter Bible conference of Washington will end today with services in the First Congregational Church, at which Rev. Dr. G. Campbell Morgan, the great English expositor, will be the principal speaker.

Tickets will be required for admission until 2:15 o'clock, and then the doors will be open to the general public without charge.

Dr. Morgan spoke yesterday in the First Congregational Church, and in the Church of the Epiphany, while S. D. Gordon, Y. M. C. A. worker, spoke at the afternoon session, in the First Congregational Church.

Dr. Morgan disapproved the phrase, "The Good Book," for the Bible, saying that it is not a book, but a whole library, consisting of sixty-six books written by at least forty persons in three languages, and extending over a period of 1,500 years.

The best way to read the Bible, Dr. Morgan said, is to start with the four gospels, then read the Acts, then the rest of the New Testament, excepting Revelations, then the Old Testament from beginning to end and then Revelations. "Read it this way once," he said, "and then read it again and again. At the ordinary pulpit rate one reading requires about sixty hours, or an hour a day for two months. Give these excellent volumes of fiction a rest for a while, my young friends, and give the Bible a chance—though I do not deny good fiction."

Mrs. Woodrow Wilson listened to the address of Dr. Frank N. Palmer at the morning session in the First Congregational Church. The audience rose and remained standing while she was leaving the edifice.
